### Ongoing fund expenses

The MER includes the management fee and operating expenses of the fund. It also includes the insurance cost for the Investment Class. You don't pay these expenses directly but they will reduce the return on your investment. An additional cost applies to the Estate Class and the Protection Class and is paid out of the contract each month which leads to a slightly lower net rate of return. For details about how the guarantees work, please refer to the contract and information folder.

### Trailing commission

Equitable pays your advisor a trailing commission of up to 1.0% for as long as you own the fund. It is for the services and advice your advisor provides to you. The trailing commission is paid out of the management fee. You don't pay these expenses directly.
